Description of product

The DuoMount is the most versatile smartphone mount on the market. Simply toss your phone or tablet toward it, and its precision magnets will guide your phone securely into place. Virtually automatic phone mounting system. You can then rotate your phone and adjust its angle to your liking. By way of intelligent blade design, the Slide CD Mount fits perfectly into your car's CD slot. At a perfect reach, solid and stable, there's no better place to mount your smartphone (all while keeping your CD player functional). When you're ready to go, there are no clumsy tabs or knobs to mess with — just grab your phone and go.

Additional information

Weight	5 oz / 141,748 g

Metal plate installation

METAL PLATE INSTALLATION

OPTION 1 - Please use this on the outside of smartphone or case

1. Clean chosen surface, make sure to remove all lint, dust and dirt from location
2. Unpeel the cover off of the adhesive tape
3. Attach to the outside of your device or case on desired location

*Please note: There is a chance Plate may leave residue on your smart-device or case, this can be easily cleaned

OPTION 2 - Please use this between smartphone and case

1. Clean chosen surface, make sure to remove all lint, dust and dirt from location
2. Unpeel the cover off of the adhesive tape (You don't have to unpeel for this option)
3. Place the plate between your smartphone and case at desired mounting location
4. Make sure your case is securely on your smartphone before using the magnetic mount

*Please note: If you are using a thick case, there is a chance you may not be able to mount safely using this option. We recommend you use it as option 1
